EDUCATION

KLE Technological University <i>Bachelor of Engineering in Electronics and Communication</i>	Hubballi, India 2020 – 2024 (CGPA: 8.65)
Karnataka Science College (KCD) <i>Pre-University (PCMS)</i>	Dharwad, India 2018 – 2020 (87%)
St Joseph's High School <i>Secondary Education (10th)</i>	Dharwad, India 2008 – 2018 (97.44%)

EXPERIENCE

Cognizant Technology Solutions <i>Programmer Analyst Trainee</i>	Nov. 2024 – Present India
- Completed training in Java Full Stack Development covering Java Core, Spring, Spring Boot, MySQL, HTML, CSS, JavaScript, and Bootstrap. - Built a Movie Catalog System using Spring Boot (backend), MySQL (database), and responsive frontend technologies. - Gained practical experience in REST API development, integration, and scalable web application design.	

PROJECTS

Movie Catalog System Java, Spring Boot, Spring Security, MySQL, HTML, CSS, Bootstrap, JavaScript - Developed a full-stack movie catalog web application to manage, browse, and review movies. - Implemented full CRUD operations and role-based authentication. - Employed Spring Data JPA for ORM and integrated front-end with Bootstrap for responsiveness.	
YelpCamp – Campground Review App Node.js, Express, MongoDB Atlas - Developed a full-stack web application using Node.js, MongoDB Atlas, Express, and Bootstrap, allowing users to explore, review, and upload camping locations with real-time map integration via Mapbox and image hosting through Cloudinary. - Designed a user-friendly comment system with edit and delete permissions for authors, and implemented secure authentication	

TECHNICAL SKILLS

Languages: C, Java, Python, JavaScript, HTML, CSS
Frameworks: Spring Boot, Spring, Spring Security, Bootstrap, Node.js, React
Databases: MySQL, MongoDB

CERTIFICATIONS

CS50: Introduction to Computer Science – Harvard University Covered foundational topics including algorithms, data structures, and software engineering. Hands-on experience with C, Python, SQL, HTML, CSS, and JavaScript through practical assignments and a final project. <i>Certificate:</i> https://certificates.cs50.io/4a72e21b-bf6e-409e-bb76-de4e944c2923	
The Web Developer Bootcamp 2024 – Udemy Comprehensive full-stack web development course covering the MERN stack (MongoDB, Express.js, React.js, Node.js), HTML, CSS, JavaScript, backend development, and database management. Includes hands-on projects. <i>Certificate:</i> http://ude.my/UC-4f15f536-6461-4b9a-ad9e-69512e358685	

PUBLICATIONS

Our Research Paper Titled '**Path Planning of Autonomous Vehicle for Real World Scenario using CARLA**' has been presented in 8th International Conference on Information and Communication Technology for Competitive Strategies (ICTCS-2023) and has been published in Springer LNNS series.
